

## South Plains College - Reese Center Course Syllabus

COURSE: **RADR 1260 (3:0:21) Practicum – Radiologic Technology/Science-Radiographer**  
SEMESTER: **Summer 2019**  
TIMES: **MWF 8:00am to 3:30pm or 3:00pm to 10:00pm**  
INSTRUCTOR: **Erica Castillo**  
OFFICE: **RC 512H**  
OFFICE HOURS: **MTWRF, 9:00-12:00 & by appointment**  
OFFICE PHONE: **806-716-4628**  
E-MAIL: [ecastillo@southplainscollege.edu](mailto:ecastillo@southplainscollege.edu)  
Facebook: [www.facebook.com/sprcradiologictechnologyprogram](http://www.facebook.com/sprcradiologictechnologyprogram)

*"South Plains College improves each student's life."*

### GENERAL COURSE INFORMATION

\*It is the responsibility of each student to be familiar with the content and requirements listed in the course syllabus.\*

#### COURSE DESCRIPTION

This course consists of practical, general workplace training supported by an individualized learning plan developed by the employer, college, and student. Direct supervision is provided by the clinical professional.

#### PURPOSE

This course will provide the student an opportunity to reinforce radiographic didactic learning, perfect technical skills and complete the required clinical radiographic competences to meet graduation requirements.

#### STUDENT LEARNING OUTCOMES

As outlined in the learning plan, apply the theory, concepts, and skills involving specialized materials, tools, equipment, procedures, regulations, laws, and interactions within and among political, economic, environmental, social, and legal systems associated with the occupation and the business/industry; and will demonstrate legal and ethical behavior, safety practices, interpersonal and teamwork skills, and appropriate written and verbal communication skills using the terminology of the occupation and the business/industry.

#### COURSE OBJECTIVES

The student will:

1. Assist in providing basic health care to the patient in the radiology department. (F6,15;C9,11,14)
2. Protect the patient from all unnecessary radiation, using the appropriate radiation protection procedures. (F6,8,12,16,17;C11,15,16,18,19,20)
3. Follow appropriate radiation protection procedures for the patient and occupational workers. (F6,8,12,16,17;C11,15,16,18,19,20)
4. Participate in radiographic procedures to achieve competency in the assigned discipline. (F1,5,6,7,8,9,16;C1,3,4,5,9,18)
5. Assist in the daily operation of the radiology department, to include (but not limited to): patient transportation, image processing, office and clerical duties as required. (F1,2,5,6,8,11,12,13,15;C4,9,15,18)

#### EVALUATION METHOD

Students are expected to maintain a grade average of **C (75)** in all Radiography classes in order to progress appropriately through the Radiography Program. Satisfactory completion of this course will assure the competency of the student in the assigned clinical area and provide correlation of classroom instruction with the clinical setting. This information will be reinforced through interactions with Radiologists, staff radiographers, and patients in the clinical sites. In addition, the

Radiology department in-service programs are available to the students. Image analysis is conducted in the clinical setting and the classroom setting.

The student should make every effort to complete 25% of the total required clinical competencies by the end of this course. This includes routine and portable procedures in the following categories:

Abdominal, Thorax, Upper Extremities/Shoulder Girdle, Lower Extremities/Pelvic Girdle, Spine, Urinary, Gastrointestinal System, Nervous System, Special procedures, as well as the areas of equipment maintenance.

If during the semester the student is having difficulty accomplishing the appropriate procedures, it may be necessary to reassign the student in order for him/her to complete the required number of procedures.

#### **GRADING CRITERIA FOR RADIOGRAPHIC PROFICIENCY**

- 1) Was the student available at the time of request?
- 2) Did the student properly interpret the request?
- 3) Did the student properly prepare the room for the procedure?
- 4) Did the student correctly identify the patient?
- 5) Did the student correctly identify himself/herself?
- 6) Did the student conduct himself/herself in a professional manner?
- 7) Did the student obtain patient history and explain the procedure to the patient?
- 8) Did the student ask the female patient if there was a possibility she could be pregnant?
- 9) Did the student give proper dressing instructions?
- 10) Did the student safely transport the patient to and from the x-ray table?
- 11) Did the student effectively communicate instructions to the patient?
- 12) Did the student demonstrate proper patient care while attending the patient?
- 13) Did the student use the correct SID?
- 14) Did the student position the patient correctly?
- 15) Did the student use the correct central ray orientation and angle?
- 16) Did the student collimate correctly?
- 17) Did the student use the appropriate film size and orientation?
- 18) Did the student use the correct marker and place it appropriately?
- 19) Did the student properly shield the patient when possible?
- 20) Did the student correctly shield himself/herself and others from unnecessary radiation exposure?
- 21) Did the student use the technical factors appropriate for the procedure being completed?
- 22) Did the student complete the correct projections for the procedure?
- 23) Did the student demonstrate the desired anatomy on the processed radiograph?
- 24) Did the student produce a diagnostic study?

If a radiograph does not display a side marker, the radiograph will be repeated and no competency will be given to the student. Computerized/digital images must display a side marker. In the event the marker is not evident on the radiograph, the radiograph will be repeated. If the supervising technologist prefers the image to not be repeated, the technologist must annotate the radiograph with their personal initials. Annotating the images post processing will not be allowed by the student.

#### **ACADEMIC INTEGRITY**

It is the aim of the faculty of South Plains College to foster a spirit of complete honesty and a high standard of integrity. The attempt of any student to present as his or her own any work which he or she has not honestly performed is regarded by the faculty and administration as a most serious offense and renders the offender liable to serious consequences, possibly suspension.

**Cheating** - Dishonesty of any kind on examinations or on written assignments, illegal possession of examinations, the use of unauthorized notes during an examination, obtaining information during an examination from the textbook or from the examination paper of another student, assisting others to cheat, alteration of grade records, illegal entry or

unauthorized presence in the office are examples of cheating. **Complete honesty is required of the student in the presentation of any and all phases of coursework.** This applies to quizzes/exams of whatever length, as well as final examinations, term papers and daily reports to include: **clinical data entry, clinical attendance, and clinical performance.**

**Plagiarism** - Offering the work of another as one's own, without proper acknowledgment, is plagiarism; therefore, any student who fails to give credit for quotations or essentially identical expression of material taken from books, encyclopedias, magazines and other reference works, or from themes, reports or other writings of a fellow student, is guilty of plagiarism.

**If found cheating or plagiarizing, the student's future in this program will be based on the decisions from the Allied Health Departmental Director's Committee.**

## **BLACKBOARD**

**Blackboard is an e-Education platform designed to enable educational innovations everywhere by connecting people and technology. This educational tool will be used in this course throughout the semester.**

## **FACEBOOK**

The Radiologic Technology Program has a Facebook page at [www.facebook.com/spradiologicstechnologyprogram](http://www.facebook.com/spradiologicstechnologyprogram). In addition to the South Plains College website, this Facebook page will be used to keep students up-to-date on program activities, weather delays, South Plains College announcements and will help with program recruitment. "Liking" the Radiologic Technology Program's Facebook page is not mandatory, however a personal Facebook account **is** needed in order to access this page.

## **SCANS and FOUNDATION SKILLS**

Refer also to Course Objectives. Scans and Foundation Skills attached

---

# **SPECIFIC COURSE INFORMATION**

## **TEXT AND MATERIALS**

Long, B.W., Rollins, J.H., Smith, B.J., Merrill's Pocket Guide to Radiography. 13<sup>th</sup> Edition, 2016. St. Louis, MI: Elsevier. ISBN: 978-0-323-31196-0. Any previously acquired textbooks may be used as reference sources as needed.

## **UNIFORMS**

The student must follow the guidelines found outlined in the Program's student handbook. Any deviation from these guidelines will result in the student being asked to leave the clinical setting to correct the infraction. The student may return once the correction has been made. If the student must leave to correct the problem, the total time away from the clinical site will be included in the missed clinical time.

## **COMMUNICATION POLICY**

Electronic communication between instructor and students in this course will utilize the South Plains College "My SPC" email systems and Remind<sup>®</sup>. The instructor will not initiate communication using private email accounts. **Students are encouraged to check SPC email on a daily basis.**

## **STUDENT CONDUCT**

Students in this class are expected to abide by the standards of student conduct as defined in the SPC Student Guide.

## **SPECIAL REQUIREMENTS**

**Cell Phones** – Students may carry their cellphone with them during clinic. The cell phone must be on silent, not vibrate. At times the program director/clinical coordinator may need to reach a student on his/her cell phone. In addition, the student may need to reach the program director/clinical coordinator via cell phone. The student may clock in/out of DataArc with his/her cell phone. Please refer to the clinical attendance section for more detail regarding clocking in/out, of DataArc with cell phone.

Personal cell phone use and phone calls should be made while on break or lunch. If the clinical instructor/technologist feels that the student is excessively using their cell phone for things other than clocking in or communicating with an instructor, they will notify the clinical coordinator and the student will be sent home for the remainder of the day. Those missed hours will go against the total missed hours allowed for the semester. In case of emergencies, the student may also be contacted at his or her assigned department.

## **ATTENDANCE POLICY (\*READ CAREFULLY\*)**

**Clinical attendance** is extremely important to the student radiographer's education. It is during this time that valuable experience is gained that is necessary for the development of radiographic skills. Missed clinical time, for whatever reason, compromises that educational experience. Being a health care provider requires commitment and professionalism, which is partially demonstrated by the student's attendance and punctuality in this course. Obviously, there are circumstances that will prevent attendance, such as in the case of illness or extreme emergency. Excessive absenteeism, regardless of the reason, makes it impossible to meet all the objectives of this course satisfactorily.

Students are expected to attend all classes in order to be successful in a course. The student may be administratively withdrawn from the course when absences become excessive as defined in the course syllabus.

When an unavoidable reason for class absence arises, such as illness, an official trip authorized by the college or an official activity, the instructor may permit the student to make up work missed. It is the student's responsibility to complete work missed within a reasonable period of time as determined by the instructor. Students are officially enrolled in all courses for which they pay tuition and fees at the time of registration. Should a student, for any reason, delay in reporting to a class after official enrollment, absences will be attributed to the student from the first class meeting.

Students who enroll in a course but have "Never Attended" by the official census date, as reported by the faculty member, will be administratively dropped by the Office of Admissions and Records. A student who does not meet the attendance requirements of a class as stated in the course syllabus and does not officially withdraw from that course by the official census date of the semester, may be administratively withdrawn from that course and receive a grade of "X" or "F" as determined by the instructor. Instructors are responsible for clearly stating their administrative drop policy in the course syllabus, and it is the student's responsibility to be aware of that policy.

It is the student's responsibility to verify administrative drops for excessive absences through MySPC using his or her student online account. If it is determined that a student is awarded financial aid for a class or classes in which the student never attended or participated, the financial aid award will be adjusted in accordance with the classes in which the student did attend/participate and the student will owe any balance resulting from the adjustment.

([http://catalog.southplainscollege.edu/content.php?catoid=47&navoid=1229#Class\\_Attendance](http://catalog.southplainscollege.edu/content.php?catoid=47&navoid=1229#Class_Attendance))

## CLINICAL ATTENDANCE

Students will adhere to the following clinical attendance policies. It is the responsibility of the student to become familiar with these policies. Ignorance of these policies will not be accepted as an excuse.

- **Clinical attendance is mandatory.** This class meets in the clinical affiliates as assigned. Attendance hours accrue throughout the Program in order to verify completion of the requirements of the Program of Radiologic Technology.
- Punctuality is a necessity in the healthcare setting. The student is required to arrive at the clinical site a few minutes early to be fully prepared to begin the day at 8:00am or 3:00pm. Clinical hours are from **8:00am to 3:30pm or 3:00pm to 10:00pm.**
- The student is required to be present in the assigned area for a total of **21 hours per week.** At the end of the semester, the student will have completed **168 clinical hours.** The first day of clinicals will be *June 3, 2018* and the last day of clinicals will be *July 26, 2018.*
- Students may miss a total of **14 hours** of clinic **without** it affecting their final grade.
- **Missed clinical hours ARE NOT eligible for make-up, however special considerations for missed clinical hours will be made on a case-by-case basis by the faculty.**
- Missed clinical time due to tardiness, extended lunches, leaving early, funeral leave, doctor appointments, errands and so forth will be added to the total clinical time missed and should be reflected in DataArc. An absence is an absence.
- Any absences in excess of the **allowed 14 hours** during the semester will result in failure of the class; therefore, the student will be dropped from the program.
- Once a student has missed **7 hours**, the clinical coordinator will meet with the student to fill out a Student Conference Form that will be put in the student's file. The purpose of this form is to document that the student has been made aware that 7 hours of clinical time has been missed.
- If excessive absenteeism jeopardizes a student's position in this course and the program, the student has the option of requesting a committee review of their case. The student must submit a written request for committee consideration. The committee's decision will be final.
  
- DataArc is used for tracking attendance. Each student is responsible for clocking **himself or herself** in/out.
- **DataArc clock in/outs can be done on cell phones once at the assigned clinical facility.**
- **No other student is to sign another student in/out.** Falsifying DataArc information will be considered academic dishonesty and treated as such in the disciplinary process.
- Students are allowed **3 missed clock in/out** occurrences for the semester. **Each missed clock in/out occurrence, after the allowed 3, will result in a 7 hour absence.**
- Students must notify the SPC clinical coordinator via email as soon as possible if he/she has failed to clock in/out. **On the following class day, the student must then see the Clinical Coordinator to sign their missed clock in/out sheet.**
- Once a student incurs **2 missed clock in/outs**, the clinical coordinator will meet with the student to fill out a Student Conference Form that will be put in the student's file. The purpose of this form is to document that the student has been made aware that two missed clock in/out occurrences have been accumulated.
  
- **Students are allowed to clock in up to 10 minutes late. A clock in later than 10 minutes after the scheduled clinical report time will be considered a tardy.** Also, students are allowed to clock in **no earlier** 10 minutes before the scheduled report time.
- Students are allowed **3 tardies** for the semester. **Each tardy, after the allowed 3, will result in an 7 hour absence.**
- Once a student incurs **2 tardies**, the clinical coordinator will meet with the student to fill out a Student Conference Form that will be put in the student's file. The purpose of this form is to document that the student has been made aware that two tardies have been accumulated.

- **In the event that any clinical time has to be missed, the student is required to do three (3) things:\***
  1. Call his or her clinical site and speak to someone directly (no voicemail)
  2. E-mail the clinical coordinator via SPC e-mail
  3. Clock in as a SICK DAY in DataArc

\* The call, e-mail and clock in should be made/done as close to the assigned start time and no later than **2 hours** after the assigned time. **Failure to do any of the above will result in a NO CALL NO SHOW.**
- **If a student incurs 3 No Call No Shows, the student will be dropped from the program.**
- **Once a student incurs 2 No Call No Shows,** the clinical coordinator will meet with the student to fill out a Student Conference Form that will be put in the student's file. The purpose of this form is to document that the student has been made aware that 2 no call no shows have been accumulated.
- The Clinical Coordinator must also be emailed **the day** the student radiographer leaves a facility early. If the student knows they will be leaving early ahead of time, they are allowed to let the clinical coordinator know ahead of time. If there will be multiple missed days, a separate email should be sent for each day with the day being missed in the subject or in the body of the email. **Failure to do either of these will also result in a NO CALL NO SHOW.**
- **Students will not be allowed to "work through lunch" and/or come in early or stay late to accrue time or compensate for being absent.**
- If a student shows up to a clinical site without their proper clinical uniform (scrubs, markers, student badge, and/or dosimeter badge), **they must clock out and get missing items and then return to their clinical site where they can clock back in. NO EXCEPTIONS!** The total time away from the clinical site will be included in the allowed missed clinical time.
- Due to insurance and scheduling considerations, the student is not to decide his/her own schedule. The Clinical Coordinator will schedule clinical rotations.
- ***The clinical schedule may change throughout the semester to compensate patient load, student competency, schedule conflicts, and facility requests. The student will be given as much notice as possible to these changes.***
- Additional attendance and absenteeism policies for South Plains College can be found in the program student handbook and the SPC general catalog.

## GRADING POLICY

Grade	Criteria	Yes (Y) No (N)
<b>A</b>	Missed clinical time did not exceed <b>24 hours</b> (Fall, Spring) or <b>14 hours (Summer)</b>	
	Student completed a <b>minimum of 20</b> of the ARRT required clinical competencies	
	Student received a passing clinical evaluation average of <b>4.0 to 5.0</b>	
	All clinical documentation submitted <b>on time each</b> assigned due date	
<b>B</b>	Student completed a <b>minimum of 15</b> of the ARRT required clinical competencies	
	Student received a passing clinical evaluation of <b>3.0 to 4.0</b>	
	Clinical documentation submitted <b>late</b> on <b>1-2</b> assigned due dates (Fall, Spring) or <b>1 assigned due date (Summer)</b>	
<b>C</b>	Student completed a <b>minimum of 10</b> of the ARRT required clinical competencies	
	Student received a passing clinical evaluation of <b>2.0 to 3.0</b>	
	Clinical documentation submitted <b>late</b> on <b>3-4</b> assigned due dates (Fall, Spring) or <b>2 assigned due dates (Summer)</b>	
<b>F</b>	Missed clinical time exceeded <b>24 hours</b> (Fall, Spring) or <b>14 hours (Summer)</b>	
	Student failed to complete a <b>minimum of 5</b> of the ARRT required clinical competencies	
	Student received a failing clinical evaluation of <b>less than 2.0</b>	
	Clinical documentation <b>never</b> submitted on any assigned due date	

\*A student must meet all criteria in the category to receive that grade. If one criteria is not meet, the grade will be determined by which category it falls under.

A grade average of **C (75) or better** must be maintained in all **radiologic technology courses**. Failure to do so will result in the student being dropped from the program.

**Failure of a clinical education course will result in the student being withdrawn from the Program. The possibility of the student repeating the clinical course may be an option that will be addressed on a case by case circumstance.**

**IF A STUDENT WISHES TO APPEAL A CLINICAL COURSE GRADE, HIS OR HER APPEAL WILL BE PRESENTED TO THE ALLIED HEALTH COMMITTEE.**

## STUDENT SUPERVISION

The student will be assigned to various areas as part of the clinical education process. It is imperative that staff radiographers supervise students during their learning experiences.

A qualified radiographer must **directly** supervise the student by reviewing the procedure in relation to the student's achievement level; evaluating the condition of the patient in relation to the student's knowledge; by being present during the performance of the procedure; and reviewing and approving the procedure. Any time during the student

performance that a repeat of an unsatisfactory radiograph is taken, there must be a qualified radiographer present per JRCERT recommendations. \*\*

**Indirect** supervision indicates that a qualified radiographer is immediately available to assist students regardless of the level of the student achievement. The qualified radiographer should be in the near vicinity of where the procedure is being performed. This applies to **all** areas where ionizing radiation is in use (surgery, portables, trauma, etc.)

Any reassignment of the student must be cleared with the Clinical Coordinator. If this procedure is ignored, notation regarding the incident will be made in the student's file and a possible grade penalty may be imposed if this is a recurring problem. It is therefore imperative that the students remain in the primary area of assignment.

**\*\*If it becomes necessary to repeat ANY radiograph, a qualified staff radiographer must directly supervise the student. THERE ARE NO EXCEPTIONS.**

## **COMPETENCIES TO BE COMPLETED BY THE COMPLETION OF THE TWO-YEAR PROGRAM:**

### **GENERAL PATIENT CARE PROCEDURES**

- CPR Certification (satisfied by Healthcare Provider CPR certification)
- Vital signs (BP, Temperature, Pulse, Respiration & Pulse Oximetry)
- Sterile & Medical Aseptic Technique
- Venipuncture
- Transfer of Patient
- Care of Patient Medical Equipment (e.g., Oxygen Tank, IV Tubing)

### **CHEST AND THORAX**

- Routine Chest
- Chest AP (Wheelchair or Stretcher)
- Ribs
- Chest Lateral Decubitus\*
- Sternum\*
- Upper Airway (soft-tissue neck)\*

### **UPPER EXTREMITY**

- Thumb or Finger
- Hand
- Wrist
- Forearm
- Elbow
- Humerus
- Shoulder
- Trauma: Shoulder or Humerus (Scapular Y, Transthoracic or Axial)
- Clavicle
- Scapula\*
- AC joints\*
- Trauma: Upper Extremity (non-shoulder)

### **LOWER EXTREMITY**

- Toes\*
- Foot

- Ankle
- Knee
- Tibia-Fibula
- Femur
- Trauma: Lower Extremity
- Patella\*
- Calcaneus \*

**HEAD** – Student must do **at least one** procedure from this section

- Skull\*
- Paranasal \*
- Facial bones\*
- Orbits\*
- Zygomatic arches\*
- Nasal bones\*
- Mandible \*
- Temporomandibular Joints\*

#### **VERTEBRAL COLUMN & PELVIS**

- Cervical Spine
- Thoracic Spine
- Lumbar Spine
- Cross-Table Lateral Spine (Horizontal Beam)
- Pelvis
- Hip
- Cross-Table Lateral Hip (Horizontal Beam)
- Sacrum and/or Coccyx\*
- Scoliosis Series\*
- Sacroiliac Joints\*

#### **ABDOMEN**

- Abdomen Supine (KUB)
- Abdomen Upright
- Abdomen Decubitus \*
- Intravenous Urography\*

**FLUOROSCOPY STUDIES** – Students must do either Upper GI or Contrast Enema **plus one** other exam from this section

- Upper GI Series, Single or Double Contrast \*
- Contrast Enema, Single or Double Contrast\*
- Small Bowel Series\*
- Esophagus\*
- Cystography/Cystourethrography\*
- ERCP\*
- Myelography\*
- Arthrography \*
- Hysterosalpingography\*

#### **MOBILE C-ARM STUDIES**

- C-Arm Procedure (Requiring Manipulation to Obtain More Than One Projection)
- Surgical C-Arm Procedure (Requiring Manipulation Around a Sterile Field)

### **MOBILE RADIOGRAPHIC STUDIES**

- Chest
- Abdomen
- Orthopedic

### **PEDIATRIC PATIENT (Age 6 or Younger)**

- Chest Routine
- Upper Extremity\*
- Lower Extremity\*
- Abdomen\*
- Mobile Study\*

### **GERIATRIC PATIENT (PHYSICALLY OR COGNITIVELY IMPAIRED AS A RESULT OF AGING)**

- Chest Routine
- Upper Extremity
- Lower Extremity

\*Denotes exams that are electives.

## **CLINICAL RECORDS**

### **DATAARC**

The student is responsible for maintaining electronic clinical records, which is DataArc, for the documentation of clinical time, experience evaluations, competencies and repeat record.

### **CLINICAL RECORDS**

The student is responsible for maintaining their own clinical records necessary for the documentation of clinical time, experience (procedures), competencies and repeat records. **All DataArc documents are due by 8:00 am on the Monday after the scheduled rotation ends.** The following documentation must be provided by the scheduled time:

- ✓ **Time Clock** – Due at the **END OF EACH ROTATION**
- ✓ **Procedure Log** - Due at the **END OF EACH ROTATION**
- ✓ **Evaluation/Sign off** – Due at the **END OF EACH ROTATION**
- ✓ **Competencies** – Due at the **END OF EACH ROTATION**
- ✓ **Repeat Record**– Checked at the **END OF THE SEMESTER**

Failure to submit these forms prevents documentation of required evaluation, clinical time, experience and competency. It will also jeopardize the student's grade. Total disregard to the Program's Clinical DataArc documentation guidelines will result in a warning, suspension, or dismissal. **See the grading rubric.**

## TIME CLOCK

The **Time Clock** provides a record of time spent at each assigned clinical education setting and will be due at the **end of each rotation**. The student may clock in/out using their cell phone once at the facility or a computer at the facility. Please refer to the clinical attendance section for more detail regarding clocking in/out of DataArc with cell phone.

## PROCEDURE LOG

The **Procedure Log** documents the radiographic procedures experienced by the student and should reflect all experiences seen during any given assigned day. A procedure log must be done for every day that the student is at clinicals. The procedure log will be due at the **end of each rotation**. Care should be taken in completing this log to reflect not only experiences in which the student assisted another technologist, but **also** the procedures done unassisted and completed as competencies as well as any repeat radiographs.

## EVALUATIONS

**Evaluations** are to be completed by the clinical site technologist(s) that the student has been working with. These are due at the **end of each rotation**. The student must sign off on the completed evaluation. If the student does not sign off on the evaluation by the due date, the evaluation will be late.

**Clinical Site Evaluations** are to be completed by the student on the clinical site where they have just completed their rotation. These are due at the **end of each rotation**. These will be completed on paper. The evaluation form can be found in Black Board under the "Forms" heading. Once completed, the student will turn it in to the clinical coordinator and sign that the evaluation has been turned in.

## CLINICAL COMPETENCIES

The **Clinical Competency Record** will be reviewed during the semester as indicated by the Clinical Coordinator and turned in at the **end of each rotation**. Please see the grading rubric for the number of competencies needed for the semester.

## CLINICAL REPEAT RECORD

The **Clinical Repeat Record** is completed in the procedure log area. If a repeat is done, you must mark it for that exam. This document provides information that will help the student improve in areas of deficiency. The form is reviewed by the Clinical Coordinator at the **end of each semester**.

**\*Running a weekly report in all categories will keep the student on track to avoid being late in any of those areas\***

---

## COMPUTER USAGE

As computer technology in the field of health occupations continues to become more popular, computers will be used in this course for several assignments. All students have access to computers and printers on the South Plains College campus. Students will be expected to utilize computers to access assignments and classroom resources. All registered students are supplied with a working email account from South Plains College. In order to take exams, students must have their user name and password.

**ALL STUDENTS ARE EXPECTED TO KNOW THEIR SPC STUDENT USER NAME AND PASSWORD.**

## **COMPUTER LAB USAGE**

The computer lab(s) on any campus may be used by students during scheduled open hours or as assigned by an instructor. Printer paper will not be provided for students to print materials but students may seek assistance from faculty or staff to request lab paper from the college if needed. Lack of computer lab paper is not an excuse for not having homework assignments, skills lab sheets, or any other required documents. Students should come prepared for class.

## **CAMPUS CONCEALED CARRY**

Campus Concealed Carry - Texas Senate Bill - 11 (Government Code 411.2031, et al.) authorizes the carrying of a concealed handgun in South Plains College buildings only by persons who have been issued and are in possession of a Texas License to Carry a Handgun. Qualified law enforcement officers or those who are otherwise authorized to carry a concealed handgun in the State of Texas are also permitted to do so. Pursuant to Penal Code (PC) 46.035 and South Plains College policy, license holders may not carry a concealed handgun in restricted locations. For a list of locations, please refer to the SPC policy at: ([http://www.southplainscollege.edu/human\\_resources/policy\\_procedure/hhc.php](http://www.southplainscollege.edu/human_resources/policy_procedure/hhc.php)) Pursuant to PC 46.035, the open carrying of handguns is prohibited on all South Plains College campuses. Report violations to the College Police Department at 806-716-2396 or 9-1-1.

**The following Penal code goes for all hospital owned property such as clinics, physician's offices, ambulances, and ambulance stations.**

Texas Penal Code - PENAL § 30.06. Trespass by License Holder with a Concealed Handgun states that an individual cannot carry a handgun (concealed or open carry) on the premises of a hospital licensed under Chapter 241, Health and Safety Code, or on the premises of a nursing facility licensed under Chapter 242, Health and Safety Code, unless the license holder has written authorization of the hospital or nursing facility administration.

## **PREGNANCY ACCOMMODATIONS STATEMENT**

If you are pregnant, or have given birth within six months, Under Title IX you have a right to reasonable accommodations to help continue your education. To activate accommodations you must submit a Title IX pregnancy accommodations request, along with specific medical documentation, to the Director of Health and Wellness. Once approved, notification will be sent to the student and instructors. It is the student's responsibility to work with the instructor to arrange accommodations. Contact Crystal Gilster, Director of Health and Wellness at 806-716-2362 or email [cgilster@southplainscollege.edu](mailto:cgilster@southplainscollege.edu) for assistance.

## **STUDENT CONDUCT**

Rules and regulations relating to the students at South Plains College are made with the view of protecting the best interests of the individual, the general welfare of the entire student body and the educational objectives of the college. As in any segment of society, a college community must be guided by standards that are stringent enough to prevent disorder, yet moderate enough to provide an atmosphere conducive to intellectual and personal development. A high standard of conduct is expected of all students. When a student enrolls at South Plains College, it is assumed that the student accepts the obligations of performance and behavior imposed by the college relevant to its lawful missions, processes and functions. Obedience to the law, respect for properly constituted authority, personal honor, integrity and common sense guide the actions of each member of the college community both in and out of the classroom. Students are subject to federal, state and local laws, as well as South Plains College rules and regulations. A student is not entitled to greater immunities or privileges before the law than those enjoyed by other citizens. Students are subject to such reasonable disciplinary action as the administration of the college may consider appropriate, including suspension and expulsion in appropriate cases for breach of federal, state or local laws, or college rules and regulations. This principle extends to conduct off-campus which is likely to have adverse effects on the college or on the educational process which identifies the offender as an unfit associate for fellow students. Any student who fails to perform according to expected standards may be asked to withdraw. Rules and regulations regarding student conduct appear in the current Student Guide.

---

## ACCOMMODATIONS

### DIVERSITY STATEMENT

In this class, the teacher will establish and support an environment that values and nurtures individual and group differences and encourages engagement and interaction. Understanding and respecting multiple experiences and perspectives will serve to challenge and stimulate all of us to learn about others, about the larger world and about ourselves. By promoting diversity and intellectual exchange, we will not only mirror society as it is, but also model society as it should and can be.

### DISABILITIES STATEMENT

Students with disabilities, including but not limited to physical, psychiatric, or learning disabilities, who wish to request accommodations in this class should notify the Disability Services Office early in the semester so that the appropriate arrangements may be made. In accordance with federal law, a student requesting accommodations must provide acceptable documentation of his/her disability to the Disability Services Office. For more information, call or visit the Disability Services Office at Levelland Student Health & Wellness Center 806-716-2577, Reese Center (also covers ATC) Building 8: 806-716-4675, Plainview Center Main Office: 806-716-4302 or 806-296-9611, or the Health and Wellness main number at 806-716-2529.

---

## COURSE OUTLINE

### CLINICAL ROTATION - ROUTINE RADIOGRAPHY

The student will:

1. Interact with patients, peers and hospital staff in a professional manner. (F15;C9-11,14)
2. Maintain the professional confidentiality of patients, staff and the hospital. (F13,17;C11)
3. Project a professional image in their attire, attitude and conduct. (F14,16,17)
4. Effectively communicate with patients and staff in a professional manner. (F5,6;C5-8,14)
5. Assist in the medical care of the patients while in the radiology department. (C11)
6. Be competent in the correct use of the radiographic equipment and accessories used in the assigned clinical affiliate: (F2,6;C3)
7. Select the proper equipment for a specific radiographic exam. (F13;C3,18,19)
8. Protect the patient, himself/herself and other staff members from unnecessary radiation exposure, using shields, distance, collimation and optimal exposure factors. (F13,17;C3,11,18,19)
9. Identify, orally and/or in writing, and perform, with the supervision of a radiographer, the radiographic projections employed in routine radiography, according to departmental protocol.
10. Position the patient and equipment, and select the appropriate technical factors for the required projections. This will include, but is not limited to the following anatomical regions: (F2,6,10,13; C1,3,4,9,15,18,19)
  - ✓ Upper extremities and shoulder girdle
  - ✓ Lower extremities and pelvic girdle
  - ✓ Thoracic cage
  - ✓ Chest
  - ✓ Abdomen
  - ✓ GI & Urinary
  - ✓ Spinal column
  - ✓ Skull
11. Identify and correct any positioning and/or technical error on processed radiographs, with the supervision of a radiographer. (F9;C3,12,13,16-20)
12. Identify and correct common processor and radiographic equipment problems. (F1,3,8,9;C5-8,15,16,18-20)

13. Assist in the work flow of the department by transporting patients, processing images, and performing clerical duties as required. However, these duties should not occupy the major portion of the student's clinical time.(F1,2,5,6,8,9,13,17;C1,4-9,11-15,18,19)

### **CLINICAL ROTATION - FLUOROSCOPIC PROCEDURES**

The student will:

1. Interact with patients, peers and hospital staff in a professional manner. (F15;C9-11,14)
2. Maintain the professional confidentiality of patients, staff and the hospital. (F13,17;C11)
3. Project a professional image in their attire, attitude and conduct. (F14,16,17;C11)
4. Effectively communicate with patients and staff in a professional manner. (F5,6;C5-8,14)
5. Assist the radiologist by performing the following procedures as they pertain to fluoroscopic examinations:(F11,13;C1,3,9,11,15,18,19)
  - ✓ Setting fluoroscopic technical factors.
  - ✓ Assisting in the positioning of the patient.
  - ✓ Administering contrast media, as is required of the procedure, with orders from the physician and with the supervision of a registered technologist.
  - ✓ Proper placement of the image receptor for spot filming.
  - ✓ Assisting in the care of the patient as required.
  - ✓ Protect the patient from unnecessary radiation exposure.
  - ✓ Protect himself/herself and other health workers from unnecessary radiation exposure.
6. Identify, orally and/or in writing, and perform any overhead projections required following the fluoroscopic procedure (to include equipment positioning, patient positioning, and selection of technical factors). (F2,6,10,13; C1,3,4,9,15,18,19)

### **SURGERY & PORTABLE RADIOGRAPHY**

The student will:

1. Interact with patients, peers and hospital staff in a professional manner. (F15;C9-11,14)
2. Maintain the professional confidentiality of patients, staff and the hospital. (F13,17;C11)
3. Project a professional image in their attire, attitude and conduct. (F14,16,17;C11)
4. Effectively communicate with patients and staff in a professional manner. (F5,6;C5-8,14)
5. Utilize radiation protection procedures necessary in surgical and portable radiography (i.e. Lead aprons and a minimum of 6 feet between the x-ray tube and personnel); and instruct hospital personnel in radiation protection procedures, when necessary. (F13,17;C3,10-12, 15,18,19)
6. Properly enter a surgical suite with knowledge of the sterile area, with attention to appropriate attire for oneself and appropriate preparation of the radiographic equipment to be used. (F13;C3,5,11,15,18,19)
7. Conduct the requested radiographic exam within a sterile environment, without contaminating the surgical field. (F13;C15,18,19)
8. Describe, orally and/or in writing, the responsibilities of the radiographer, perform the procedure under the supervision of a radiographer, and assist the surgeon with any fluoroscopic requirements of the procedure. This will include, but is not limited to: (F2,6,11-13;C3,15,18,19)
  - ✓ Operative cholangiograms
  - ✓ Retrograde pyelograms
  - ✓ Orthopedic procedures
  - ✓ ERCP assistance
  - ✓ Post-operative extremity films

- ✓ Recovery room radiography
- ✓ Spinal laminectomies
- ✓ Pacemaker insertions
- ✓ Operation of c-arm equipment

9. Identify, orally and/or in writing, and perform the portable procedures with the supervision of a radiographer, by correctly positioning the patient and equipment, and selecting the appropriate technical factors according to the departmental protocol. This will include, but is not limited to the following anatomical regions: (F2,6,13;C3,15,18,19)
- A. Upper extremities and shoulder girdle
  - B. Lower extremities and pelvic girdle
  - C. Chest
  - D. Abdomen
  - E. Spinal column
  - F. Skull
10. Identify orally and correct any positioning and/or technical errors on the processed portable radiograph and make corrections with the supervision of a radiographer. (F13;C15,18,19)

### **PEDIATRIC RADIOGRAPHY**

The student will:

1. Adjust routine procedures to accommodate pediatric patients, including the positioning of the patient, adjusting equipment and selecting technical factors as appropriate. (F7,8,13;C3,5,15,16,18,19)
2. Perform procedures specific to pediatric patients, to include, but not limited to: (F11-13;C15,18,19)
  - ✓ Bone age radiographic exams
  - ✓ Long bone radiographic exams
  - ✓ Scoliosis radiographic exams
  - ✓ Congenital hip malformation radiographic exams
  - ✓ Skeletal survey radiographic exams
3. Select appropriate devices to assist in the radiography of pediatric patients, to include, but not limited to: (F8,13;C3,15,18,19)
  - ✓ Radiation protection devices
  - ✓ Immobilization devices

### **GERIATRIC RADIOGRAPHY**

1. Follows all procedures above for a patient that is physically or cognitively impaired as a result of aging.

### **SPECIAL PROCEDURES**

The student will:

1. Interact and effectively communicate with patients, peers and hospital staff in a professional manner. (F5,15;C5-8,9-11,14)
2. Maintain the professional confidentiality of patients, staff and the hospital. (F13,17;C11)
3. Project a professional image with appropriate attire, attitude and conduct. (F14,16,17;C11)

4. Identify, orally and/or in writing, the required scout films, contrast media, special equipment, (i.e. Injectors, sterile trays, guide wires, catheters, etc.), patient preparation, patient position and emergency procedure for any special procedure routinely done in that department. This will include, but is not limited to: (F5,6,9-17;C1,3-9,11-20)
  - ✓ Myelography
  - ✓ Arthrography
  - ✓ Venography
  - ✓ Arteriography
  
5. Prepare the special procedures suite or room, by setting up the necessary equipment and instruments for any special procedure routinely done in that department. This will include, but is not limited to: (F5,6,9,10,13-17;C1,3-9,11-20)
  - ✓ Myelography
  - ✓ Arthrography
  - ✓ Venography
  - ✓ Arteriography
  
6. Describe, orally and/or in writing, and perform, with the supervision of a radiographer and according to departmental protocol, any special procedure routinely done in that department. Assist the radiographer and/or physician with any of these procedures. This will include, but is not limited to: (F5,6,9,10,13-17;C1,3-9,11-20)
  - ✓ Myelography
  - ✓ Arthrography
  - ✓ Venography
  - ✓ Arteriography
  
7. Assist the radiographer and/or physician with the care of the patient while in the special procedures suite/room. (F5,6,13,15;C1,3,5-7,9,11-20)

---

## FOUNDATION SKILLS

### **BASIC SKILLS—Reads, Writes, Performs Arithmetic and Mathematical Operations, Listens and Speaks**

F-1 Reading—locates, understands, and interprets written information in prose and in documents such as manuals, graphs, and schedules.

F-2 Writing—communicates thoughts, ideas, information and messages in writing and creates documents such as letters, directions, manuals, reports, graphs, and flow charts.

F-3 Arithmetic—performs basic computations; uses basic numerical concepts such as whole numbers, etc.

F-4 Mathematics—approaches practical problems by choosing appropriately from a variety of mathematical techniques.

F-5 Listening—receives, attends to, interprets, and responds to verbal messages and other cues.

F-6 Speaking—organizes ideas and communicates orally.

### **THINKING SKILLS—Thinks Creatively, Makes Decisions, Solves Problems, Visualizes and Knows How to Learn and Reason**

F-7 Creative Thinking—generates new ideas.

F-8 Decision-Making—specifies goals and constraints, generate alternatives, consider risks, evaluate and chooses best alternative.

F-9 Problem Solving—recognizes problems, devises and implements plan of action.

F-10 Seeing Things in the Mind's Eye—organizes and processes symbols, pictures, graphs, objects, and other information.

F-11 Knowing How to Learn—uses efficient learning techniques to acquire and apply new knowledge and skills.

F-12 Reasoning—discovers a rule or principle underlying the relationship between two or more objects and applies it when solving a problem.

### **PERSONAL QUALITIES—Displays Responsibility, Self-Esteem, Sociability, Self-Management, Integrity and Honesty**

F-13 Responsibility—exerts a high level of effort and perseveres towards goal attainment.

F-14 Self-Esteem—believes in own self-worth and maintains a positive view of self.

F-15 Sociability—demonstrates understanding, friendliness, adaptability, empathy and politeness in group settings.

F-16 Self-Management—assesses self accurately, sets personal goals, monitors progress and exhibits self-control.

F-17 Integrity/Honesty—chooses ethical courses of action.

---

## **SCANS COMPETENCIES**

C-1 **TIME** - Selects goal - relevant activities, ranks them, allocates time, prepares and follows schedules.

C-2 **MONEY** - Uses or prepares budgets, makes forecasts, keeps records and makes adjustments to meet objectives.

C-3 **MATERIALS AND FACILITIES** - Acquires, stores, allocates, and uses materials or space efficiently.

C-4 **HUMAN RESOURCES** - Assesses skills and distributes work accordingly, evaluates performances and provides feedback.

### **INFORMATION - Acquires and Uses Information**

C-5 Acquires and evaluates information.

C-6 Organizes and maintains information.

C-7 Interprets and communicates information.

C-8 Uses computers to process information.

### **INTERPERSONAL—Works with Others**

C-9 Participates as a member of a team and contributes to group effort.

C-10 Teaches others new skills.

C-11 Serves Clients/Customers—works to satisfy customer's expectations.

C-12 Exercises Leadership—communicates ideas to justify position, persuades and convinces others, responsibly challenges existing procedures and policies.

C-13 Negotiates—works toward agreements involving exchanges of resources; resolves divergent interests.

C-14 Works With Diversity—works well with men and women from diverse backgrounds.

### **SYSTEMS—Understands Complex Interrelationships**

C-15 Understands Systems—knows how social, organizational, and technological systems work and operates effectively with them.

C-16 Monitors and Corrects Performance—distinguishes trends, predicts impacts on system operations, diagnoses systems performance and corrects malfunctions.

C-17 Improves or Designs Systems–suggests modifications to existing systems and develops new or alternative systems to improve performance.

**TECHNOLOGY–Works with a Variety of Technologies**

C-18 Selects Technology–chooses procedures, tools, or equipment, including computers and related technologies.

C-19 Applies Technology to Task–understands overall intent and proper procedures for setup and operation of equipment.

C-20 Maintains and Troubleshoots Equipment–prevents, identifies, or solves problems with equipment, including computers and other technologies.

**Radiologic Technology Class #46  
Summer 2019 Rotation Schedule - 1260**

<b>SITE</b>	<b>SU 19 June 3 – June 28</b>	<b>SU 19 July 1 – July 26</b>
PAV	Monique	Shelby
UMC	Alan	Monique
CDI	Hillary	Alan
UMC/ER		Hillary
UMC	Brooklyn	
COS	Dulka	Brooklyn
UMC/EVE	Victoria	Dulka
UMC/OR	CJ	Victoria
KP		CJ
UMC	Brett	
PAV		Brett
LSM	James	
UMC/ER	Richard	James
CDI	Ryan	Richard
UMC/EVE	Noe	Ryan
UMC/OR	Shelby	Noe

**\*\*All Clinical documentation is due the Monday after the scheduled rotation ends by 8:00am\*\***

I have received a copy of the RADR 1260 course syllabus. I have read and understand the contents of this syllabus.
